River Operations Update

June 16, 2022

LOWER MISS AND GULF:

Old River Lock (305 LM) – The plan is to close to traffic on 15 August for 90 days. There will be no passing of traffic during this time - tows would have to use the Atchafalaya River to access the Red River.

CUMBERLAND RIVER:

CHEATHAM LOCK (MM 148.7) - FULL CLOSURE

TASK	DURATION	START	FINISH
PHASE 3	14 DAYS	6/13/2022	6/26/2022
LOCK CLOSED	11 DAYS	6/13/2022	6/23/2022
LOCK OPEN	3 DAYS	6/24/2022	6/26/2022

River Operations Update

Special Note - Please be aware Celtic's Service Agreement under the "Tolls, Taxes, or User Charges" clause gives Celtic the right to bill costs for lock delays.

Weather Highlights:

- Heat stress will continue to be an issue over much of the Mississippi Valley today. **Heat Advisories** and **Excessive Heat Warnings** are in effect as heat indices will rise above 100°.
- An **Enhanced** risk of severe storms (3 on a scale of 5) is also in place over WI today. Damaging wind gusts, very large hail, and tornadoes will be possible this evening in that area.

7-day QPF totals (through next Monday morning):

- Upper MS: Up to 2" of rain is possible with the highest amounts expected over WI.
- Middle MS/Ohio Valley: Up to 1 ½" is possible over the region.
- Lower MS Valley: Very little precip is expected with up to ¾" possible over southern MS and LA.
