## River Operations Update

### Weather Highlights:

- Heavy rainfall will be possible today over southern MO as well as southeast LA and flash flooding will be possible in these areas.
- **A Heat Advisory** is in effect across the Mississippi Valley today from Vicksburg to Quincy, IL. Heat indices from 105-110° are expected. Use caution if working outside for long periods of time.

### 7-day QPF totals (through next Monday morning):

- Upper MS: Up to 1 ½" will be possible over the region.
- Middle MS/Ohio Valley: Between ¼-3" is forecast over the region.
- Lower MS Valley: Between 1-3" is possible over south MS/LA and 1-3" over the Upper Tennessee Valley. The region in between can expect up to 1".
